

INVITATION

INNOVATIVE THINKING

Shaping the Future of Subcutaneous CPI Delivery

You are invited to attend the opening sponsored symposium at this year's CAPHo Conference. This highly interactive session unites leading oncologist and pharmacy experts to explore cutting-edge strategies for optimizing subcutaneous (SC) checkpoint inhibitor (CPI) delivery.

Through real-world, **pharmacy-led pilot initiatives**, you'll uncover **how SC CPI delivery can transform Canadian oncology practice**—enhancing patient-centered care, streamlining workflows, and improving system efficiency.

DATE: Thursday, April 23rd, 2026

TIME: 11:00 am to 12:30 pm (CT)

LOCATION: TCU Place Saskatoon

35 - 22nd St. East, Saskatoon, SK, S7K 0C8

PROGRAM OBJECTIVES:

At the end of this symposium, participants will be able to:

1. Explain the potential impact of SC CPI delivery on Canadian oncology practice, patient-centred care, and system efficiency.
2. Describe pharmacy-led pilot initiatives for SC CPI delivery, describing the opportunities, challenges, and expected outcomes of each project.
3. Identify actionable strategies and best practices to support the adoption, scaling, and sustainability of SC CPI delivery models in their own institutions.
