

CAPhO at 20

1996 - 2016

History

Oncology pharmacists in Canada started to get organized as a profession in **1986**, when Rosemary Bacovsky and Mary Gannon invited 20 of their colleagues to a meeting in Toronto.

Two years later, in 1988, Rosemary and Larry Broadfield organized the first National Oncology Pharmacy Symposium (NOPS).

The CAPhO Founding meeting was part of NOPS in 1995 and over that year the work of bringing CAPhO to life was completed.

The first Annual General Meeting was held at NOPS in 1996.

Yesterday

Today

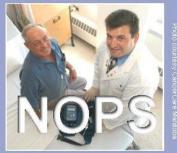

20 successful & busy years

From a local meeting with colleagues in the 1980s to a national association that is well respected in the international arena, CAPhO's history reflects the dedication of its members to the practice of oncology pharmacy.

Perspectives in Oncology Pharmacy
